

HEATED LINES SELF-REGULATING AND ANY REQUESTED LENGTH FROM THE REEL Type series ELH/sb

Application range

Analysis measuring technique up to 130
Transport of liquids and gases
For the frost protection
Environmental technique

Technical Data

Heating power : 13...60 W/m
Lengths : max...60m
Nominal diameters : 4...8mm
Operation temperatures : up to max. 130
Connection voltage : 230 V
Heating tape : self-regulating;
protective earthed

Various types

ELH/sb : with a fixed inner-hose of teflon (PTFE) ; ready for installation
ELH/sbA : with a fixed inner-hose of teflon (PTFE) ; not ready for installation - requested length to be cut from the reel by the customer

Type addition ELH/ /i : exchangeable PTFE inner hose
Type addition ELH/ /T : outer protection "step-proof" metal corrugated hose with PVC-covering
Type addition ELH/ /iT :exchangeabel PTFE inner hose and outer protection step-proof

Table ELH/a

DN	inner hose		heated hose o-ø mm approx.	heating power W/m approx.	
	i-ø mm	o-ø mm		frost protection	130
4	4	6	42	13	60
6	6	8	42	13	60
8	8	10	42	13	60

Table ELH / ai

DN	inner hose		heated hose o-ø mm approx.	heating power W/m approx.	
	i-ø mm	o-ø mm		frost protection	130
4	4	6	42	13	60
6	6	8	42	13	60
8	8	10	42	13	60
