

## APPLICATION

### Freeze Protection

Freeze protection for Pipe, Tank, Hopper, Silo and Vessel

### Temperature Maintenance

Prevent lump forming in pipe line  
Prevent condensation of stored goods  
Reaction temperature maintenance in waste water disposal plant  
Water temperature maintenance in fish farm, aquarium, Spa and Pool  
LNG and LPG storage

### Snow and Ice Melting

Snow and ice melting on sidewalks, ramp, slab, bridge decks, stairways, and plane landing strip  
Icicle removal in roof and eaves  
Frost prevention for ice link and ski  
Ice melting in radar and antennas

### Floor warming

Floor warming for hotel, office, condominium, church, school and temple  
Regenerative floor warming using late-night electricity  
Warming for swimming pool deck and animal pens  
Soil heating for soccer field and golf green
