

Accessories

Connection and termination kit

Type ELVB-SRA for ELSR heating tapes

Inline extension kit

Type ELVB-SRA for ELSR heating tapes or for the connection of power cables

End caps

Type DHB-400 for ELSR heating tapes

Junction and connection box

Type ELAK-2

98 x 98 x 58 mm (w/h/d)

Cable entries: 3 x Pg 16

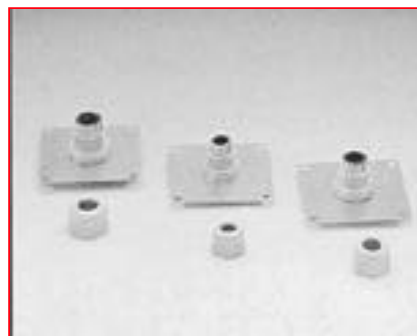

Terminals: 5 x 2.5 mm

Bracket

for the installation of junction boxes outside of the thermal insulation, with fastener
(please specify pipe diameter)

Type ELMSAK-2 for ELAK-2

Insulation entry kit

with Pg gland, for insulation material with metal jacket

ELISD-1 for power cable:

ELISD-2 for power cable:

ELISD-3 for ELSR tapes:

ELISD-4 for sensor cable (PT 100)

Caution label "Electric heating"

Type EL-WS, to be displayed every 5th metre.

Available in English, German or Russian
(please specify)

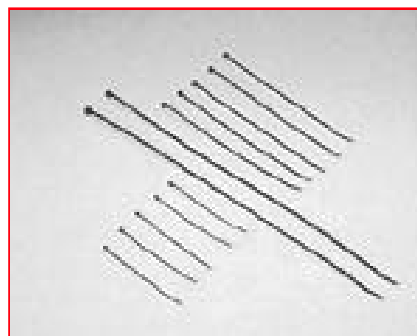

Adhesive tape

to fix heating tapes and connection cables to pipes.

ELB-1: plastic adh. tape, 25 m roll, 19 mm wide, max. temp. 90

ELB-3: cloth adh. tape, 50 m roll, 12 mm wide, max. temp. 90
(increased resistance to tearing)

ELB-7: aluminum adh. tape, to ensure heat distribution esp. on plastic pipes, 50 m roll, 75 mm wide, max. temp. 90

Plastic fasteners

UV resistant, for quick and easy installation of the heating tapes, max. temp. 80

ELB-16.100: 100 mm long, 2 mm wide, max. pipe diameter: 20 mm

ELB-16.200: 200 mm long, 3.9 mm wide, max. pipe diameter: 40 mm

ELB-16.368: 368 mm long, 4.8 mm wide, max. pipe diameter: 100 mm
