APPLICATION

Emergency and Essential Services

- Fire Alarm Equipment
- Fire Doors/Shutters
- Smoke Extract Units
- Voice Alarm Systems
- Sprinkler Control System
- Fire Telephones
- Emergency Power Supply
- CCTV systems
- Emergency Lighting
- Control Center
- Lifts and Escalators

General Electric Services

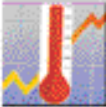

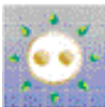

- Ring and Radial Circuits
- External Lighting Circuits

Wiring in Potentially Explosive Atmospheres

- Prevent the transmission of vapors, gases or flames

Advantages of MI Power Cable

| | | | | | |
|---|----------------------------|---|---------------------------------|---|----------------------------|
|  | Fire Proof |  | High Operating Temperature 가 |  | Pilable |
|  | Inherent Flameproof |  | Radiation Resistant |  | Zero Energy |
|  | Waterproof |  | Earth Continuity |  | Cable and Conduit Canbined |
|  | Competitive Installed Cost |  | Non-Ageing |  | High Corrosion Resistance |
|  | Great Mechanical Strength |  | Small Overall Diameter |  | High Degree Electric |
